Hello again! We hope you are enjoying the summer and that the gas crunch isn't hindering your activities too much. We have been very busy traveling - a May vacation to England & Scotland (with an unsuccessful search for the Loch Ness monster) and a highly successful show at C.O.I.N. followed by a visit to Tahoe for the show at Harvey's Inn. Hence the delay in getting this, our seventh list, out to you. We'll look forward to hearing from you. We will have a table at the ANA, so come by and see us.

(Ms) Marnev Albert

SPECIAL OFFERING

FIRST COIN OF THE AMERICAS AND THE SMALLEST COIN OF THE AMERICAS

Some time about 20-50 years after Christopher Columbus discovered Santo Domingo that island started issuing a crude copper coin under Spanish rule. That 4 Maravedis coin is 25-28 mm and usually weighs 3 to 4.5 grams. While some Mexican historians claim otherwise, many experts feel that this particular coin may have been issued as early as 1505 and is the first "coinage" of the Americas. An historic document from the days of the earliest Spanish conquistadors and settlers this Carlos & Johanna issue is a bargain at only \$9.00.

PANAMA "PILL" or 2½ Centesimos 1904 Yeoman #5. This 10 millimeter "pill sized" silver issue is 2 mm. thick but weighs just 1.25 gr. Due to its tiny size and attractive design, it is one of the most publicized and popular Latin American coins. We offer VF-VF+ @ \$12; AEF-EF @ \$14 each; and a few EF-AU (with luster) examples @ \$17.50.
